

## **Mathematics Curriculum Framework Revision Panel Forums**

You are cordially invited to attend a public forum to learn about the work and deliberations of the Mathematics Curriculum Framework Revision Panel as they complete Phase I of the revision process.

**About the Mathematics Curriculum Framework Revision Process:** In August of 2007 the Board of Education established a schedule for the review of all of the Massachusetts Curriculum Frameworks on a five-year cycle. In the spring of 2008, the department began the process of revising the 2000 Mathematics Curriculum Framework. The review will be a two-phase process beginning with the appointment of a panel to review the current framework and to make suggestions for revision to the Board of Elementary and Secondary Education. The Mathematics Curriculum Framework Revision Panel, appointed in March 2008, has 34 members including teachers, administrators, mathematics faculty and mathematics education faculty, parents and members from the business community. They have been meeting monthly since April 2008.

**Who Should Attend the Forums:** All members of the public are invited.

### **About the Forums:**

At these Public Forums members of the Mathematics Framework Revision Panel and Department of Elementary and Secondary Education will present the work of the panel to date and will solicit public comments and feedback.

### **Forums Dates/Locations/Times:**
